SUBJECT

*To improve health
through leadership,
service and education.*

Request approval to increase the maximum obligation of the Agreement with FujiFilm Medical Systems U.S.A., Inc. for the provision of equipment preventive maintenance and repair services for the Department of Health Services' facilities.

IT IS RECOMMENDED THAT YOUR BOARD:

Authorize the Interim Director of Health Services (Interim Director), or his designee, to execute Amendment No. 3 to Agreement No. H-207500 with Fujifilm Medical Systems U.S.A., Inc. (Fuji), effective on Board approval to increase the maximum obligation by \$1,609,430 for the period July 1, 2010 through June 30, 2013, for additional equipment maintenance and repair services for computed radiography digital imaging systems at LAC+USC Medical Center (LAC+USC), Martin Luther King, Jr. Multi-Service Ambulatory Care Center (MLK-MACC), Rancho Los Amigos National Rehabilitation Center (Rancho), High Desert Health System (HDHS), Harbor-UCLA Medical Center (Harbor), and Olive View-UCLA Medical Center (Olive View) and add the mandatory Defaulted Property Tax Reduction Program language.

www.dhs.lacounty.gov

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

Approval of the recommendation will allow the Interim Director to execute Amendment No. 3, substantially similar to Exhibit I, with Fuji to increase the maximum obligation during the remainder of the Agreement term for the provision of maintenance and repair services for additional computed radiography digital imaging systems at the Department of Health Services (DHS) facilities. In addition, the recommended Amendment adds the recently adopted mandatory Defaulted Property Tax Reduction Program language.

DHS has completed implementation of the Fuji Picture Archive and Communications System (PACS) on a Department-wide basis to replace obsolete radiology systems. Since the Agreement was last extended in 2008, the Radiology Information System (RIS) at LAC+USC has come off warranty, as well as a significant amount of equipment at MLK-MACC which was the last DHS facility to implement Fuji PACS. As a result, this equipment now needs coverage for preventive maintenance and repair services.

When possible, DHS contracts with Original Equipment Manufacturers (OEMs) to ensure that the equipment, which often uses proprietary technology, performs in accordance with equipment specifications and complies with all accrediting and licensing agency requirements, including The Joint Commission. Fuji is an OEM and the equipment being added to the Agreement has proprietary components that only Fuji can maintain.

Implementation of Strategic Plan Goals

The recommended actions support Goal 4, Health and Mental Health, of the County's Strategic Plan.

FISCAL IMPACT/FINANCING

The current maximum obligation under the Agreement for Fiscal Year (FY) 2010-11 through 2012-13 is \$3,365,948 and with this Amendment will increase to \$4,975,378. Additionally, as previously approved by your Board, the Agreement includes delegated authority to increase the maximum obligation by no more than 25 percent for equipment coming off warranty, emergency or unanticipated equipment maintenance and repair services. Funding is included in DHS' 2010-11 Proposed Budget and will be requested in future fiscal years. The maximum obligation for each FY including potential delegated authority increases for each DHS facility is identified on Attachment A.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

On April 2, 2002, your Board approved a sole source agreement with Fuji for equipment maintenance and repair services at MLK-MACC (then MLK, Jr. – Drew Medical Center) and LAC +USC, for the period April 2, 2002 through June 30, 2005. Subsequently, your Board approved Amendments No. 1 and 2 which extended the term of the Agreement to June 30, 2013 and added the remaining DHS facilities including Olive View, Rancho, HDHS, and Harbor.

The recommended Amendment will increase the maximum obligation to obtain preventive maintenance and repair services for the additional Fuji PACS systems at LAC+USC and MLK-MACC and other DHS facilities newly coming off of warranty.

Fuji equipment is used for patient diagnoses; the equipment is regulated by the Food and Drug

Administration as "medical devices" and must be appropriately serviced and maintained. Consequently, provision of service maintenance is necessary to ensure that the equipment complies with all regulations. Pursuant to the Agreement, the equipment is maintained in accordance with the manufacturer's performance standards and in compliance with all accrediting and reviewing agency requirements, including The Joint Commission.

The Agreement contains all Board required provisions. The County may terminate the Agreement with 30 days prior written notice. DHS has determined that this is not a Proposition A agreement because the services provided are intermittent and highly specialized, therefore, the County's Living Wage Program (County Code Charter 2.201) does not apply.

County Counsel has reviewed and approved Exhibit I as to use and form.

CONTRACTING PROCESS

Not applicable.

IMPACT ON CURRENT SERVICES (OR PROJECTS)

Approval of the recommendation will ensure maintenance and repair services are provided for all the equipment.

Respectfully submitted,
